COMMUNICATION FROM THE COMMISSION

EUROPE 2020 A strategy for smart, sustainable and inclusive growth

Preface

2010 must mark a new beginning. I want Europe to emerge stronger from the economic and financial crisis.

Economic realities are moving faster than political realities, as we have seen with the global impact of the financial crisis. We need to accept that the increased economic interdependence demands also a more determined and coherent response at the political level.

The last two years have left millions unemployed. It has brought a burden of debt that will last for many years. It has brought new pressures on our social cohesion. It has also exposed some fundamental truths about the challenges that the European economy faces. And in the meantime, the global economy is moving forward. How Europe responds will determine our future.

COMUNICACIÓN DE LA COMISIÓN

E UROPA 2020 Una estrategia para un crecimiento inteligente, sostenible e integrador

Prefacio

El año 2010 debe marcar un nuevo principio. Quiero que Europa surja más fuerte de la crisis económica y financiera.

Las realidades económicas se están moviendo más rápidamente que las realidades políticas, como hemos visto con el impacto global de la crisis financiera. Necesitamos aceptar que la cada vez mayor interdependencia económica exige también una respuesta más decidida y coherente a nivel político.

Los últimos dos años han dejado a millones de personas sin empleo. Han generado una deuda que representará una carga durante muchos años y han ejercido nuevas presiones sobre nuestra cohesión social. También han puesto de relieve algunas verdades fundamentales sobre los desafíos a que se enfrenta la economía europea. Y, mientras tanto, la economía global sigue su marcha. La respuesta de Europa determinará nuestro futuro.

**Europe 2020: a strategy for European Union growth**

The Commission proposes a new political strategy, 'Europe 2020', to support employment, productivity and social cohesion in Europe. The European Union (EU) currently faces a moment of transformation, resulting mainly from globalisation, climate change and demographic ageing. In addition, the 2008 financial crisis has challenged the social and economic progress made by EU countries. The economic recovery which started in 2010 must be accompanied by a series of reforms in order to guarantee the sustainable development of the EU in the coming decade.
