Scientific sectors	L-LIN/03; L-LIN/04; L-LIN/07; L-LIN/10; L-LIN/12; M-GGR/02; AGR/01; IUS/13; MAT/05.
Educational aims	<p>The PhD Course in “Euro(pean) Languages and Specialized Terminologies”, in collaboration with Université d’Artois (Arras, France), aims to highlight, from an interdisciplinary perspective, the role played by European languages (English and French) and specialized terminologies in the fields of law and economy, sociology, maths and finance as well as in the agricultural-food sector, with particular reference to the technical/specialized vocabulary pertaining to each subject. The development of a language can be evaluated through the evolution of its vocabulary, since the emergence of new realities/concepts entails the creation of new linguistic tools for the study and management of increasingly complex textual typologies.</p> <p>The PhD Course thus fosters a specialized study of European languages, cultures and literatures, with the objective of designing and promoting international linguistic policies through the creation of innovative terminological products in the field of technical and scientific communication.</p> <p>In particular, the PhD Course aims to develop research on foreign languages in a diachronic and synchronic perspective; to produce monolingual and/or multilingual studies in relevant fields of study; to further the knowledge of the application sector and provide the terminological skills necessary to train experts in the field.</p> <p>For the industrial curriculum, specific objectives are defined, to be</p>

	agreed with the affiliated company depending on the research project to be carried out as part of the PhD course.
Coordinator	Prof. ssa Maria Giovanna Petrillo
Entry requirements	<p>Possession of one of the following qualifications:</p> <p>Any type of “vecchio ordinamento” and “nuovo ordinamento” BA degree or any other Italian Master’s degree (“Laurea Specialistica/Magistrale”) or equivalent academic degree obtained abroad and declared equivalent or recognized as correspondent to the above-mentioned academic qualifications.</p> <p>N.B. the PhD selection process is also open to those who obtain their qualifications by 31 October 2021.</p>
Selection	Interview in the foreign language chosen by the candidate between English and French
Curriculum assessment	<p>The assessment in the first phase is expressed in analytical form by the committee on the basis of the evaluation of the following elements presented by the candidate:</p> <ul style="list-style-type: none"> - Specialization courses, 2nd level Master’s programs whose aims are in line with the subjects of the Doctoral Program, and/or language certifications starting from CEFR level C1: max points 5; - Vocational and/or training courses related to the subjects of the Doctoral Program: max points 5; - Scientific publications in line with the PhD course, to be presented in authenticated hard copy together with the application form: max points 5; <p>(pass score: 5; maximum score: 15)</p>
Interview	<p>The interview will be held on September 22, 2021 at the Department of Economic and Legal Studies of the University ‘Parthenope’ of Naples, Via Generale Parisi 13, 5th floor, room 510. The interview may also take place remotely.</p> <p>The interview will concern the discussion of a research project – presented exclusively during the interview - related to the topics of the PhD in the foreign language chosen by the candidate, who must demonstrate mastery of the chosen foreign language as well as knowledge of the fields of linguistics, lexicology and terminology.</p> <p>The knowledge of at least a second foreign language of the European Union will also be assessed during the interview.</p> <p>The maximum score for the interview is 85. The pass score for the interview is 50.</p>
